ثانيا تكوين الجملة (الاجابة):

أما فى حالة الاجابة على سؤال فنعكس الخطوات السابقة:

1- نحذف اداة الاستفهام ونقدم الفاعل علي الفعل المساعد ونضع الاجابة المناسبة.
2- اذا كان الفعل المساعد (does or do) يحذف ونضع الفعل في المضارع البسيط.
3- اذا كان الفعل المساعد (did) يحذف ونضع الفعل في زمن الماضي البسيط.
4- اذا بدأ السؤال بفعل مساعد وبدون اداة استفهام نجيب ب (Yes or No) ثم نقدم الفاعل علي الفعل المساعد.

ملحوظ : في زمن المضارع البسيط والماضي البسيط لا يوجد فعل مساعد في الجملة ولان السؤال يجب ان يحتوي علي فعل مساعد بعد اداة الاستفهام, نستخدم (does) مع المفرد ونستخدم (do) مع الجمع في زمن الضارع البسيط.

ونستخدم (did) مع زمن الماضي البسيط مع المفرد والجمع.

Ahmed:...?

Ali : He plays volleyball at the club every Friday.

الجملة السابقة لا يوجد فعل مساعد والفعل الاساسي (يلعب) مضارع بسيط والفاعل (هو) مفرد اذن نستخدم (does) كفعل مساعد.

How much do you know about pyramids? Let's compare two pyramids in Egypt. The Great Pyramid of Giza is 146 metres tall. It's taller than the Red Pyramid, which is 105 metres tall. But the Red Pyramid is further away from the centre of Cairo, so it's less crowded with visitors. Because it's less crowded, it's also quieter.

Now let's compare two very tall buildings. The Shanghai Tower in China is 632 metres tall. The tower first opened in 2015. The Al Hamra Tower in Kuwait is 412.6 metres tall. The building first opened in 2011. So, the Shanghai Tower is taller and more modern than Al Hamra Tower in Kuwait.

Finally, we're going to compare two capital cities. Bangkok became the capital of Thailand about 600 years ago, so it's much older than Brasilia. Brasilia is a modern city. The Brazilians built it in 1960. More people live in Bangkok than Brasilia. The population of Bangkok is more than 10 million. The population of Brasilia is about four and a half million.

The Grand Egyptian Museum

(1) The oldest museum in Cairo opened in 1835. There were more than 160,000 of Egypt's most valuable treasures on display. However, the museum did not have space for 100,000 other objects. In 2002, there was a competition to design a bigger and more modern museum. The competition had 1,557 designs from more than 80 different countries.

(2) The Grand Egyptian Museum (GEM) welcomed its first visitors in 2019. It is further from the city centre than the old museum, but only two kilometres from the pyramids at Giza. It has more space for valuable objects more people can see them and it is able to look after the objects really well.

(3) One of the most beautiful parts of the museum is the entrance with its big plants and statues. The biggest is that of Ramses 11, which is 12-metres high.

(4) Moving these objects from the old museum in Tahrir to complete the Grand Egyptian Museum is not easy. It is expected to take many years of hard work .

Read the text again and answer the questions.

We had a wonderful holiday in Egypt. These are my opinions about three of the most interesting places.

The Valley of the Kings in Luxor is one of the most popular places for tourists to visit. We went early because that is the quietest time. My brother said, "This is fantastic!" I am sure it gets busier later on during the day.

The biggest place we went to was e Karnak Temple. My favourite part was the Hypostyle Hall, a 5,000-square-metre room with 134 stone columns. I think it was more crowded than the Valley of the Kings. In my opinion, the best and quietest place we visited was Habu Temple. It has columns similar to those at Karnak, but because it is less crowded, you can study them for longer.

Reading WB page 81

The British Museum

The British Museum in London is the oldest public museum in the world. It opened in 1759 and now has more than 13 million objects. About six million visitors go there every year.

The museum has the biggest collection of Egyptian objects outside Egypt. One of its most important objects is the Rosetta Stone. This arrived at the museum in 1802.

The writing on the stone is in three different languages. This allowed people to understand ancient Egyptian hieroglyphics for the first time.
In my opinion, the most beautiful part of the museum is the Great Court. Its big glass room makes it the largest covered square in Europe. It opened in 2000, so it is also the most modern part of the museum.

Reading WB page 82

Al Azhar Park is the largest and the most beautiful park in Cairo. It is much larger than the small park near my house. That park has a few trees and plants and I enjoy going there after school. You can spend an hour or two in that park, but you can spend a lot of time at Al Azhar Park. The trees there are taller and it has more plants. It also has fountains, a lake and cafes, too. Imad: Hi Hassan. What are you looking at?
Hassan: Hi Imad. It's an article about adventure sports in Egypt.
Imad: Oh yes! Last year, I went diving in the Red Sea. It was amazing!
Hassan : I'd love to do that. I'd like to try windsurfing, too.
Imad: What about rock climbing?
Hassan: I don't know. I think rock climbing is a bit dangerous, but I like trekking in the mountains.
Imad: Me, too! I like the mountains. I'm going to visit Sinai with my family in the holidays.
Hassan: Are you going to try mountain hiking, I mad?
Imad: No, I'm not going to do anything scary. It is very difficult to ride a bike in the mountains.
Hassan: I think you're right. Zip lining looks scary, too.
Imad: I think it looks fun! I'm going to try it one day!
Hassan: Really? No way!

Dear Grandma,

We're really enjoying ourselves on holiday. It's beautiful here and there's a lot to do.

Yesterday was an adventure. We went trekking in the mountains. It was sunny when we started, but when we got to the top of the mountain, we saw dark clouds, On the way down, the rain started! Then there was a storm. The rocks were wet and Tamer fell over and hurt himself. But it's OK - his leg is better today.

Tomorrow, the weather is going to be better, so we're going to try zip

I'm a bit frightened, but I'm excited, too.

See you soon, Dalia

Last weekend, we went on a trip to the desert. I woke up early and made myself breakfast. Then I got dressed. I put on my clothes and looked at myself in the mirror, I put on a hat and sunglasses to protect'" myself from the sun. At the desert, we met our guide'? and we rode with him on our camels. My sister took this photo of herself with her camel. That night, we cooked ourselves dinner on a fire. After dinner, when it got cold, we sat by the fire to keep ourselves warm.

Around the World in 80 Days. Which types of transport did people use in 1872?

In 1872, the writer Jules Verne read a newspaper article about a new railway line across India. It gave him a great idea for a book. He wrote a story about a British man called

Phileas Fogg. He takes a challenge to travel around the world in just 80 days. This sounds easy today, but at that time, there were no cars or planes.

2. Look at Phileas Fogg's plan and answer the questions.

London to Suez, Egypt	train and ship	7 days
Suez to India	ship	13 days
India to Hong Kong	train and ship	16 days
Hong Kong to Japan	ship	6 days
Japan to the USA	ship	22 days
Across the USA	train	7 days
USA to London	ship	9 days
Leave on 2"d October	Return on 21st December	

When Phileas Fogg takes the ship back to London from the USA, there is a big storm at sea and he arrives on London one day late, on 22nd December. But he made a mistake: because he travelled east around the world, it is one day earlier than he thought. So he completes his challenge on time!

Hi Dareen,
How are you? I'm really enjoying myself in Sydney with my family. Sydney is about eight hours by car from our home in Melbourne.
Yesterday, I climbed Sydney Harbour Bridge. It was very high and scary. But the views from the top were fantastic! My sister and I took a great selfie of ourselves!
Tonight, I am going to listen to music at the Sydney Opera House, but it is not opera, it is classical music! Tomorrow, I am going to the Blue Mountains. I am going to swim in a lake and go rock climbing. Here are some photos!
Love Amy

Hi Amy,
Your holiday sounds fantastic. My family and I went to Sydney last year, but we did not climb the bridge! We went to Bondi Beach and went windsurfing and kayaking. I love water sports!
I hope you enjoy your holiday, send me an email when you are home.
Love, Dareen

Ola: I'm really enjoying myself on our holiday. I love being by the sea. What shall we do this afternoon?
Lamia: Why don't we go swimming?
Ola: I'm not sure. Swimming is fun, but we can do that at home. I'd rather do something more exciting.
Lamia: OK. How about going windsurfing?
Ola: I don't know. I'm not very good at windsurfing ... and it isn't very windy today.
Lamia: OK, not swimming and not windsurfing. I know! Let's go kayaking.
Ola: Good idea! I love kayaking.

Reading WB page 91

Last weekend, I watched a TV programme about Robinson Crusoe Island. The author of Robinson Crusoe, Daniel Defoe, wrote about this island because a real sailor called Alexander Selkirk spent four years alone here. Defoe wrote Robinson Crusoe after hearing about this man. However, Crusoe's adventures were different to Mr Selkirk's. Crusoe spent a lot longer on the island (28 years) and the weather was a lot hotter than on the real island. Today, about 800 people live on Robinson Crusoe Island. Life is easier now, although people still have to look after themselves. The nearest land, Chile, is 24 hours away by boat. Soon they are going to build a new school and hospital on the island. Those are things that Crusoe did not have!

3-Read the following, then answer.

William Shakespeare was an English playwright and poet who was born in 1564. He spent his childhood in Stratford Upon Avon. He went to the local grammar school where he was taught Latin and Greek. At the age of 18, he married Anne Hathaway. They had three children. He became an actor and playwright and performed for king James I at the Globe Theatre. The original theatre was burnt down in the 17th century but recently another Globe theatre has been built on the same spot. The architects used pictures of the old theatre to make the new one almost identical.

Shakespeare wrote 37 plays and a lot of poetry. His most famous plays are probably Hamlet, King Lear, Macbeth and Othello. He also wrote historical plays such as Antony and Cleopatra, mostly written in verse. Shakespeare died rich in Stratford Upon Avon, on the 23rd April, 1616.

Round houses around the world

Many traditional houses in the past were round. Today, many modern houses are also round. Why is this? There are lots of reasons!

A round shape means the building is very strong. This is important when there is an earthquake or in strong winds. Also, heavy snow or rain will fall from the roof.

A round house is also easier to keep warm or cool. It is also quieter inside a round building than a building that is a rectangle or square!

Finally, a round building uses fewer materials so it is cheaper to make. It also has more space inside. How fantastic!

Lesson 1 Reading SB page 45

Dangers of the sea

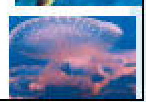

The shark is one of the most dangerous sea animals in the ocean. If it loses a tooth, a new one grows. A shark uses more than 20,000 teeth in its life! So how do fish and sea animals protect themselves from danger.

A stingray is a big, flat fish and it lives in the coral reef. If it knows a shark is coming, it jumps out of the water!

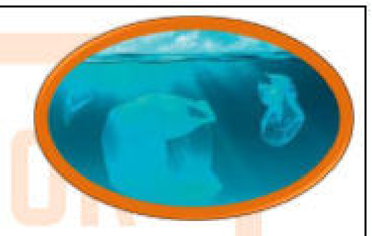

A sea turtle has a hard shell to protect it. Other animals can swim very fast – the octopus has got eight legs to help it!

Some sea life, like the jellyfish is poisonous. It stings you when you touch it. What about the whales? These big, heavy animals hit with their tails.

Lesson 2 Reading SB page 46

We must save our planet!

Plastic is everywhere! We use it for many different things. The problem is, plastic stays in the environment for a very long time.

Some of the plastic people find on beaches is about 100 years old! We can recycle some plastic, but most of it goes into the ocean. Plastic is poisonous when animals eat it.

Every year, more than 100,000 sea animals and birds die from plastic. We must try to use other materials- paper and glass, for example - because these are easier to recycle.

When we use a plastic shopping bag, we mustn't throw away these bags in rivers. It will take a long time to clean all the plastic rubbish from the beaches and the ocean. But we mustn't stop trying to help our planet!

Lesson 3 Listening SB page 48

Teacher: We're going to visit this nature reserve today. We have nature reserves to help our birds, plants and animals. Many important birds, animals and plants live here, so we must be careful what we do.

First, you mustn't make a lot of noise! You'll frighten the animals and birds. Secondly, we must not leave the road through the reserve. The animals and birds live in the plants next to the road and you don't want to walk into their homes, do you?

Now, I know we're going to have a picnic lunch later, but you mustn't give any food to the animals or birds. They must find their own food. They mustn't think that all their food will come from you!

Next, you must take all your rubbish with you when you leave. Some animals think that plastic is food, but they mustn't eat it. It is very bad for them. Finally, you must remember to work together and write what you see. You can write about your visit to the reserve for the project.

Lesson 5 Reading SB page 51

The Old Man and the Sea by Ernest Hemingway

Santiago was an old fisherman. He felt worried because the last time he caught a fish was 84 days ago. On the 85th day, he felt a big fish at the end of his fishing line. But the fish was stronger than Santiago. It took two days for him to finally pull it to the boat. Then the sharks came. When Santiago returned to his home on the beach, he had no fish, only a skeleton. He felt weak and slept for a long time. But the other fishermen saw how big the fish was and knew that he was brave to catch it. Santiago lost the fish, but the other fishermen now respected him more than ever.

When Santiago woke up, he saw the boy Manolin. Santiago smiled. "We must fish together next time." Said Manolin. "Yes, but I don't feel well today." Said Santiago. "You must get well fast because there is so much I can learn from you." Said Manolin.

My predictions for the future

By Ahmed

In the next 30 years, there will be a lot of changes in our lives. Technology will make our lives easier and more interesting. Our phones will be even more important and we will have apps for everything.
Scientists will find new cures for illnesses so people will live longer. Some illnesses will disappear completely.
All our cars will be electric. If this happens, it will be much better for the air in our cities, won't it? I don't think I will have to learn to drive because cars will drive themselves!
There will be a lot of interesting new jobs for people. Robots will do some of the jobs that people do today. But I don't think we will have robot doctors or teachers!
I think there will be a lot of exciting changes in the future, but some things will stay the same. Children will still go to school, learn new things and spend time with friends.
